

## Our Program

The Purpose of the Utah Farmworker Program is to provide services to hardworking, documented farmworkers and their families in an attempt to: Acquire skills that permit them to upgrade their employment in agriculture or to progress to other employment outside of farmwork; Contribute to the stabilization of the farmworkers' continued employment in farmwork; Help achieve economic self-sufficiency; Support the client during job training.

In most cases, our clients just need the opportunity to show what good workers they are and to prove what valuable employees they can be. We have been operating this program in Utah since 1992, and have helped thousands of Farmworkers to improve their situations, their skills, and their lives. During that time, we have helped hundreds of companies get good quality employees.

**In recent years,  
we have trained  
clients & helped  
employers find  
quality employees  
throughout the state.**
